### Identification:

Each length of pipe and each fitting shall be plainly marked with the country of the origin, the manufacturer's initials or registered trademark by which the manufacturer can be readily identified after installation, and with letters to indicate the proper classification, as follows: XH Extra Heavy SV Service. The marking shall be cast, stenciled, or otherwise applied on the pipe so as to clear and legible after installation. The marking shall be cast in raised letters on fittings and shall be clear and legible after installation and located away from the spigot end so as not to interfere with proper joining upon installation. Each pipe shall be marked with the date of manufacturer. Pipe and fittings shall also bear the UPC® certification mark.

### Characteristics:

Cast iron soil pipe and fittings for use in gravity flow applications. These pipe and fittings are not intended for pressure applications as the selection of the proper size for drain, waste, vent and storm drain systems allow free air space for gravity drainage. To be installed in accordance with the manufacturer's installation instruction and the requirement of the latest edition of the Uniform Plumbing Code.

Products listed on this certificate have been tested by an IAPMO R&T recognized laboratory. This recognition has been granted based upon the laboratory's compliance to the applicable requirements of ISO/IEC 17025.
